

KLONDIKE® SIDING

Klondike Siding shown in Twilight Black

Klondike Siding

Klondike Siding panel is an economical, structural, thru-fastened metal siding system suitable for extreme climates and is ideal for commercial, exterior or interior siding, wainscoting, and trailer skirting.

FEATURES AND BENEFITS

- Enhanced panel design provides an aesthetic lapped seam that blends into the panel for a clean and uniform look.
- Enhanced panel design resists harsh Alaskan winds, suitable for designs including 130 mph winds.
- Available in 9 standard ColorGuard 25 with Spectrascape® colors and 15 standard Dura Tech™ xl colors, as well as 29 gauge ZINCALUME® Plus.
- Available in 5 standard specialty prints.
- Custom colors available.
- 26 gauge available as a special order in 10 standard Dura Tech™ nt colors as well as 26 gauge ZINCALUME® Plus.
- Three easy to specify standard pre-punch screw hole patterns available upon request.

KLONDIKE® SIDING

Cool DURA TECH XL

COOL Dura Tech xl keeps the heat out and the color brilliant.

- Superior color retention and resistance to chalk and fade.
- Dura Tech xl energy saving **COOL** colors reduce the demand for energy.

ColorGuard™ 25 with Spectrascape®

is a robust and economical paint system.

- Resistant to chalk and fade with ratings similar to a PVDF.
- Engineered to resist peeling or cracking for 25 years.

Standard Panel Colors

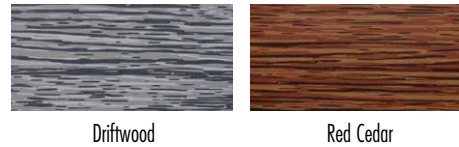

Cool DURA TECH 5000

Dura Tech coatings combine the corrosion protection of a ZINCALUME® substrate with a highly durable resin formulation and cool pigment technology to provide excellent color retention and reduces the demand for energy.

Woodgrain Prints

Paint Finish Notes

- Inquire with a sales representative for lead times and further information.
- 26 gauge panels are offered in our premium Dura Tech nt paint system. Inquire with your sales representative for a complete 26 gauge color offer.
- 26 gauge Dura Tech nt or custom 29 and 26 gauge colors require extended lead times.

Flashings & Trim

All trims and flashings are offered in our 29 gauge ColorGuard 25 with Spectrascape paint system, as well as ZINCALUME Plus. Large 29 or 26 gauge flashing orders may require extended lead times. Inquire with a sales representative for more information.

REPRESENTATION OF COLORS MAY VARY DUE TO PRINTING LIMITATIONS.
Sample color chips are available upon request. Consult your ASC Building Products representative for more information.

Oil Canning

All flat metal surfaces can display waviness commonly referred to as "oil canning". Oil canning is an inherent characteristic of steel products, not a defect, and therefore is not a cause for panel rejection.
